Selectman Abbott agreed to contact FRCOG Procurement Officer, Andrea Woods to work on a bid proposal to request service quotations. In addition, he thought to check if BNCS would be available to assist and guide the process for very specific purpose(s). The Library situation was in question as to whether they connect through Central/Western Massachusetts Automated Resource Sharing, Inc. (CWMARS) There was discussion concerning whether the Town's phone system (Avaya phones) would work properly with the Voice Over Internet Protocol and that a new system might be required.

3/. 4/. Logging Trucks on Shippee Road: Chair Wilson reported that a citizen had expressed concern about the heavy logging trucks passing on Shippee Road to log on Yankee property passing where a number of children lived. She proceeded to research the practice and learned that the application process involved first presenting a Forest Cutting Plan to Department of Conservation and Recreation, then go to Town Conservation Commission for review. Since this was, in this case, completed and in compliance and is a public road, nothing could be done. Both Chair Wilson and Selectman Abbott noted that this approval had gone through without the knowledge of the Select Board at any point in the process. It was agreed that there was a need for greater communication among various town committees regarding significant projects of this kind.
